## HELPFUL TIPS FOR WASHING THE INTERIOR

### EMPTY THE CAR

Empty all items and personal belongings from inside the car and put them aside in a bag.

### MOVE ON TO THE MATS

Take the mats out of the car and vacuum and clean or wash them.

### SEATS AND TRUNK

Thoroughly vacuum the seats and trunk, while paying attention to all the less accessible areas where dirt and dust deposit.

### USE SPECIFIC CLEANERS AND CLOTHS

Clean the different materials with a specific cleaner and soft, clean microfibre cloths.

### END WITH THE WINDOWS

Always use a specific product and two microfibre cloths to clean the windows, one to clean the surface and remove dirt and the other to finish and prevent marks from forming.

## PASSION INSIDE!

## MANIAC LINE ONLY FOR TRUE CAR MANIACS

**Maniac Line** by MA-FRA is a line of high performance and high technological content products for true car care enthusiasts, for all those who do not find their **comfort zone** comfort zone in other products.

### PROTECT YOUR CAR OVER TIME!

**Proper washing** following all proper steps and our advice, prevents premature aging of the car while maintaining its original appearance.

**A thorough and specific washing**, on the other hand, keeps the car clean longer; and facilitates the regular washing operation.

**Interior cleaning** is essential for obtaining a healthy environment for all occupants, especially for children and animals. Periodically purification of surfaces and of the air conditioning system drastically decreases the possibility of allergies and the formation of contaminations which could be harmful for your health and for the different materials of car interior surfaces.

### FREQUENCY OF WASHING WE RECOMMEND A COMPLETE WASH ONCE EVERY ONE OR TWO WEEKS ON THE BASIS OF THE KM TRAVELED

### WHAT IS THE PERFECT WASH CYCLE?

5 SIMPLE STEPS  
TO ENSURE  
A FLAWLESS RESULT,  
EVERY TIME!

## HELPFUL TIPS TO WASH THE EXTERIOR

### ALWAYS IN THE SHADE

Wash the car in a shaded area and **never in direct sunlight**, to prevent the shampoo from drying out, which will stain.

### NEVER ON HOT BODYWORK

If the car has been exposed to the sun or the bonnet is very hot, **cool the surface with a jet of cold water**.

### START FROM THE TOP

It is the least dirty part and you will avoid dirtying the glove: **washing will be faster**.

### TRY TO USE TWO BUCKETS

In the first you will put the solution of water and shampoo, in the second only water to rinse frequently the sponge or glove: **you will avoid scratching the bodywork**.

### WASH SMALL SECTIONS AT A TIME

You will not forget any part, the product will be very effective and will not dry: **you will prevent stains and marks**.

### PERFECT RIMS

Clean the rims **with a brush** that can reach the most hidden points.

### OUR CERTIFICATION

ALL OUR PRODUCTS ARE

**PROUDLY  
MADE IN ITALY**
